producing structure(s), in order to be able to direct the treatment accurately to reduce the pain and promote healing as quickly and effectively as possible.

Diagnosis and Chiropractic treatment

Diagnosis, Treatment and Management of Conditions.

Chiropractic is a primary healthcare profession that specialises in the diagnosis, treatment and overall management of conditions that are due to problems with the joints, muscles and nerves, with particular focus on the spine. We assess body performance through FMS and SFMA testing, before we recommend the appropriate treatment plan.

Chiropractic - Netdoctor

Chiropractic treatment and massage therapy mainly involves safe, often gentle, specific spinal adjustments to free joints in the spine or other areas of the body that are not moving properly. This impaired movement can cause a decrease in functionality of the spine and the body as a whole, leading to possible nerve interference.
