Pressure Transmitters

The Fuji Electric FCX-CII is a high performance low cost pressure transmitter. This is achieved by offering only stainless steel wetted parts and mid-range measuring cells. For high/low pressure ranges, or exotic materials, select the FCX-AII.

Fuji Electric Flow Transmitter - Coulton

The FCX series transmitter uses an all-welded construction with fill fluid that has been subjected to high vacuum for an extended period to remove entrained air. This provides long term reliability not found in any level transmitter of it's type.
